PROFESSIONAL SUMMARY

Frontend Developer specializing in React.js and modern JavaScript (ES6+), with hands-on experience building scalable, high-performance web applications. Proven ability to optimize performance, integrate REST APIs, and deliver responsive, user-centric interfaces. Passionate about clean code, reusable components, and solving real-world problems.

EXPERIENCE

- 01/2024 – Present

Frontend Developer Intern (Self/Practice Experience)

Developed multiple React-based applications simulating real-world use cases Improved UI performance and responsiveness across projects Practiced clean code architecture and reusable component design Collaborated using Git and GitHub version control workflows

EDUCATION

- 2022 – 2024

Master of Computer Science,

Chhatrapati Shahu Institute of Business Education and Research

TECHNICAL SKILLS

- Frontend

React.js, JavaScript (ES6+), HTML5, CSS3

State Management

Redux, Context API

Styling

Tailwind CSS, Bootstrap
- API Handling

REST APIs, Axios, Fetch API

Core Concepts

Responsive Design, Performance Optimization, Cross-Browser Compatibility

Tools

Git, GitHub, VS Code, Chrome DevTools, NPM

PROJECTS

- E-Commerce Web Application, React, Redux, REST API

Built a scalable e-commerce platform with product listing, filtering, and cart functionality Managed global state using Redux for efficient data flow and scalability Integrated REST APIs to fetch real-time product data Optimized rendering performance using React best practices Improved user experience with responsive and mobile-first design
- Portfolio Website, React, HTML, CSS, JavaScript

Developed a fully responsive personal portfolio showcasing projects and skills Reduced page load time by ~30% using image optimization and lazy loading Ensured cross-browser compatibility and modern UI design Deployed on Vercel with continuous deployment setup
- Weather Application, React, JavaScript, REST API

Built a real-time weather app displaying temperature, humidity, and conditions Integrated external APIs with error handling and loading states Designed reusable components for maintainable code structure

ACHIEVEMENTS

Built and deployed 3+ production-ready frontend projects

Strong understanding of modern frontend development practices

Active GitHub contributor with consistent project updates
